E. Evaluation of Bid

An Evaluation Committee will be established according to the relevant Jordan’s regulations. To determine the responsiveness of bids according to the principles indicated in ITB Clause 24 and, to carry out evaluation according to ITB Clauses 25, 26, 27, 28 and 29, the Evaluation Committee will follow the steps indicated in the Bid Data Sheet.

The Evaluation Committee may, at its discretion, ask the Bidder for a clarification of its bid. The request for clarification and the response shall be in writing, and no change in the prices or Substance of the bid shall be sought, offered, or permitted.

Subject to Sub-Clause 23.2, no Bidder shall contact the Evaluation Committee and Purchaser on any matter relating to its Bid from the time of bidding opening to the time the Contract is awarded. If the Bidder wishes to bring additional information to the notice of Purchaser, it should do so in writing.

Any effort by the Bidder to influence the Evaluation Committee and Purchaser during bid evaluation, bid comparison or contract award decisions may result in the rejection of the bidders' bid.

Prior to the detailed evaluation, pursuant to ITB Clause 28, the Evaluation Committee will determine the substantial responsiveness of each bid to the Bidding Documents. A substantially responsive bid is one that conforms to all the terms, conditions and specifications of the Bidding Documents without material deviation, reservation or omission. Deviation, reservation or omission to critical provisions, such as those concerning eligibility of Bidder (ITB Clause 2) eligibility of goods (ITB Clause 3), Bid Security (ITB Clause 15), Applicable Law (GCC Clause 31), and Taxes and Duties (GCC Clause 33) etc. will be deemed to be a material deviation. Bidders shall indicate any deviations and exceptions from the provisions of sections 4, 5, 6 and 8, using the form furnished in Section 8, Sample Form No. 11. Bidders shall take into account that deviations and/or exceptions
may lead to the determination that the Bid is not substantially responsive. The Evaluation Committee’s determination of a bid’s responsiveness is to be based on the contents of the bid itself without recourse to extrinsic evidence.

24.2 In the case in which one or more single items of a bid are determined as non-substantially responsive, to establish the overall substantial responsiveness of the bid, the Evaluation Committee will adopt the criteria detailed in the Bid Data Sheet.

24.3 If a bid is not substantially responsive, it will be rejected by the Evaluation Committee and may not subsequently be made responsive by the Bidder by correction of the nonconformity.

24.4 The Evaluation Committee may waive any minor non-conformity or omission in the Bid that does not constitute a material deviation. In such case the Evaluation Committee may request that the Bidder submits the necessary information or documentation, within a reasonable period of time, to rectify nonmaterial, nonconformities or omissions in the Technical Offer related to documentation requirements. Failure of the Bidder to comply with the request may result in the rejection of its Bid.

24.5 The Evaluation Committee will correct arithmetical errors during evaluation of Price Offers on the following basis:
   (a) if there is a discrepancy between the unit price and the total price that is obtained by multiplying the unit price and quantity, the unit price shall prevail and the total price shall be corrected.
   (b) if there is an error in a total corresponding to the addition or subtraction of subtotals, the subtotals shall prevail and the total shall be corrected; and
   (c) if there is a discrepancy between words and figures, the amount in words shall prevail, unless the amount expressed in words is related to an arithmetic error, in which case the amount in figures shall prevail subject to (a) and (b) above.

If the Bidder does not accept the correction of the errors, its bid will be rejected, and its Bid Security may be forfeited.

25. Preliminary Examination

25.1 The Evaluation Committee shall examine the Technical Offer to confirm whether all documents and technical documentation requested in ITB Sub-Clause 9.2 have been provided, whether they have been properly signed, and to determine the completeness of each document submitted.

25.2 If the Technical documents or technical documentation requested in ITB Sub-Clause 9.2 is missing, the bid shall be rejected.

25.3 Likewise, following the opening of Price Offer, the Evaluation Committee shall examine whether all the documents requested in ITB Sub-Clause 9.3 have been provided, whether they have been properly signed, to determine the completeness of each document submitted and to examine whether any computational errors have been made and whether the goods offered meet the eligibility...
25.4 The Evaluation Committee shall confirm that the following documents and information have been provided in the Price Offer. If any of these documents or information is missing, the bid shall be rejected.

(a) Price Offer Submission Sheet in accordance with ITB Clause 10; and

(b) Price Schedules, in accordance with ITB Clauses 11 and 12.

26. Examination of Terms and Conditions; Technical Evaluation

26.1 The Evaluation Committee shall examine bids to confirm that all terms and conditions specified in the GCC and the SCC have been accepted by the Bidder without any material deviation or reservation.

26.2 The Evaluation Committee shall evaluate the technical aspects of the Bid submitted in accordance with ITB Clause 14, to confirm that all requirements specified in Section 7, Technical Specifications have been met without any material deviation or reservation.

26.3 If, after the examination of the terms and conditions and the technical evaluation, the Evaluation Committee determines that the Bid is not substantially responsive in accordance with ITB Clause 24, it shall reject the Bid.

27. Conversion to Single Currency

27.1 No exercise of conversion to single currency will be carried out pursuant to ITB Clause 12.

28. Evaluation and Comparison of Bids

28.1 The Evaluation Committee will evaluate and compare the bids that have been determined to be substantially responsive, pursuant to ITB Clause 24.

28.2 The Evaluation Committee evaluation of a bid will exclude and not take into account:

(a) in the case of goods manufactured in the Purchaser’s country or goods of foreign origin already located in the Purchaser’s country, sales and other similar taxes, which will be payable on the goods if a Contract is awarded to the Bidder;

(b) in the case of goods of foreign origin offered from abroad, customs duties and other similar import taxes which will be payable on the goods if the Contract is awarded to the Bidder, and

(c) any allowance for price adjustment during the period of execution of the Contract, if provided in the bid.

28.3 The comparison of bids shall be between the DAT prices of the goods and related services.

28.4 The Evaluation Committee evaluation of a bid will take into account, in addition to the bid price, one or more of the following factors as specified in the Bid Data Sheet, and quantified in ITB Sub-Clause 28.5:

(a) cost of inland transportation, insurance, and other costs within the Purchaser’s country incidental to delivery of the
goods to their final destination;
(b) delivery schedule offered in the bid;
(c) deviations in payment schedule from that specified in the SCC Data Sheet;
(d) the cost of components, mandatory spare parts, and service;
(e) the availability in the Purchaser’s country of spare parts and after-sales services for the equipment offered in the bid;
(f) the projected operating and maintenance costs during the life of the equipment;
(g) the performance and productivity of the equipment offered; and/or
(h) other specific criteria indicated in the Bid Data Sheet and/or in the Technical Specifications.

28.5 For factors retained in the Bid Data Sheet pursuant to ITB Sub-Clause 28.4, one or more of the following quantification methods will be applied, as detailed in the Bid Data Sheet:

(a) **Inland transportation from EXW/port of entry/border point, insurance and incidentals:** Inland transportation, insurance, and other incidental costs for delivery of the goods from EXW/port of entry/border point to Project Site named in the Bid Data Sheet will be computed for each bid by the Evaluation Committee on the basis of published tariffs by the rail or road transport agencies, Insurance companies, and/or other appropriate sources. To facilitate such computation, Bidder shall furnish in its bid the estimated dimensions and shipping weight and the approximate EXW/CIF (or CTP border point) value of each package. The above cost will be added by the Evaluation Committee to EXW/CIF/CIP/DAT border point price.

(b) **Delivery Schedule:**

(i) The Evaluation Committee requires that the goods under the Invitation for Bids shall be delivered (shipped) at the time specified in the Schedule of Requirements. The estimated time of arrival of goods at the Project Site will be calculated for each bid after allowing for reasonable international and inland transportation time. Treating the bid resulting in such time of arrival as the base, a delivery adjustment will be calculated for other bids by applying a percentage, specified in the Bid Data Sheet, of the EXW/CIF/CIP/DAT price for each week of delay beyond the base, and this will be added to the bid price for evaluation. No credit shall be given to early
delivery.

Or

(ii) The goods covered under this invitation are required to be delivered (shipped) within an acceptable range of weeks specified in the Schedule of Requirement. No credit will be given to earlier deliveries, and bids offering delivery beyond this range will be treated as non-responsive. Within this acceptable range, an adjustment per week, as specified in the Bid Data Sheet, will be added for evaluation to the bid price of bids offering deliveries later than the earliest delivery period specified in the Schedule of Requirements.

Or

(iii) The goods covered under this invitation are required to be delivered (shipped) in partial shipments, as specified in the Schedule of Requirements. Bids offering deliveries earlier or later than the specified deliveries will be adjusted in the evaluation by adding to the bid price a factor equal to a percentage, specified in the Bid Data Sheet, of EXW/CIF/CIP/DAT price per week of variation from the specified delivery schedule.

(c) Deviation in payment schedule:

(i) Bidders shall state their bid price for the payment schedule outlined in the SCC Data Sheet. Bids will be evaluated on the basis of this base price. Bidders are, however, permitted to state an alternative payment schedule and indicate the reduction in bid price they wish to offer for such alternative payment schedule. The Evaluation Committee may consider the alternative payment schedule offered by the selected Bidder.

Or

(ii) The SCC Data Sheet stipulates the payment schedule offered by Purchaser. If a bid deviates from the schedule and if such deviation is considered acceptable to the Evaluation Committee, the bid will be evaluated by calculating interest earned for any earlier payments involved in the terms outlined in the bid as compared with those stipulated in this
invitation, at the rate per annum as specified in the Bid Data Sheet.

(d) Cost of spare parts:

(i) The list of items and quantities of major assemblies, components, and selected spare parts, likely to be required during the initial period of operation specified in the Bid Data Sheet, is annexed to the Technical Specifications. The total cost of these items, at the unit prices quoted in each bid, will be added to the bid price.

Or

(ii) Purchaser will draw up a list of high-usage and high-value items of components and spare parts, along with estimated quantities of usage in the initial period of operation specified in the Bid Data Sheet. The total cost of these items and quantities will be computed from spare parts unit prices submitted by the Bidder and added to the bid price.

Or

(iii) The Evaluation Committee will estimate the cost of spare parts usage in the initial period of operation specified in the Bid Data Sheet, based on information furnished by each Bidder, as well as on past experience of the Purchaser or other purchaser in similar situations. Such costs shall be added to the bid price for evaluation.

(e) Spare parts and after sales service facilities in the Purchaser’s country: The cost to the Purchaser of establishing the minimum service facilities and parts inventories, as outlined in the Bid Data Sheet or elsewhere in the Bidding Documents, if quoted separately, shall be added to the bid price.

(f) Operating and maintenance costs: Since the operating and maintenance costs of the goods under procurement form a major part of the life cycle cost of the equipment, these costs will be evaluated in accordance with the criteria specified in the Bid Data Sheet or in the Technical Specifications.
(g) **Performance and productivity of the equipment:**

(i) Bidders shall state the guaranteed performance or efficiency in response to the Technical Specification. For each drop in the performance or efficiency below the norm of 100, an adjustment for an amount specified in the Bid Data Sheet will be added to the bid price, representing the capitalized cost of additional operating costs over the life of the plant, using the methodology specified in the Bid Data Sheet or in the Technical Specifications.

Or

(ii) Goods offered shall have a minimum productivity specified under the relevant provision in the Technical Specifications to be considered responsive. Evaluation shall be based on the cost per unit of the actual productivity of goods offered in the bid, and adjustment will be added to the bid price using the methodology specified in the Bid Data Sheet or in the Technical Specifications.

(iii) Specific additional criteria indicated in the Bid Data Sheet and/or in the Technical Specifications.

(h) **The relevant evaluation method shall be detailed in the Bid Data Sheet.**

Alternative Merit Point System: The following merit point system for weighing evaluation factors can be applied if none of the evaluation methods listed in ITB Sub-Clause 28.5 above have been retained in the Bid Data Sheet. The number of points allocated to each factor shall be specified in the Bid Data Sheet.

The bid scoring the highest number of points will be deemed to be the lowest evaluated bid.

29. **Post-qualification 29.1** The Evaluation Committee will determine to its satisfaction during the evaluation of the Technical Offer whether the Bidders are qualified to perform the Contract satisfactorily.
The determination shall be based upon an examination of the documentary evidence of the Bidder’s qualifications submitted by the Bidder, pursuant to ITB Clause 13.

An affirmative determination shall be a prerequisite for the opening and evaluation of a Bidder’s Price Offers. A negative determination shall result in the disqualification of the Bid.

F. Award of Contract

30. Award Criteria

30.1 Prior to the award of the Contract, only if specified in the Bid Data Sheet, Purchaser will notify the Bidder, whose bid has been determined to be substantially responsive and has been determined to be the lowest evaluated bid, to participate in a phase of negotiation, according to what indicated in the Bid Data Sheet.

30.2 Subject to ITB Clause 32, Purchaser will award the Contract to the Bidder provided that:
(a) its Bid has been determined to be substantially responsive;
(b) its Bid has been determined, according to what indicated in the Bid Data Sheet, to be the lowest evaluated bid;
(c) its Bid is determined to be qualified to perform the Contract satisfactorily according to ITB Clause 29.
(d) negotiation, if any, pursuant to ITB Sub-Clause 30.1, is successful;

31. Right to Vary Quantities at Time of Award

31.1 Purchaser reserves the right at the time of contract award to increase or decrease, by the percentage indicated in the Bid Data Sheet, the quantity of goods and services originally specified in the Technical Specifications/Price Schedule without any change in unit price or other terms and conditions.

32. Right to Accept Any Bid and to Reject Any or All Bids

32.1 Purchaser reserves the right to accept or reject any bid, and to annul the bidding process and reject all bids at any time prior to contract award, without thereby incurring any liability to the affected Bidder or bidders or any obligation to inform the affected Bidder or bidders of the grounds for Purchaser action.

33. Notification of Award

33.1 Prior to the expiration of the period of bid validity, Purchaser will notify the successful Bidder in writing, to be confirmed in writing, that its bid has been accepted.

33.2 The notification of award will constitute the formation of the Contract.

33.3 Upon the successful Bidder’s furnishing of the performance security pursuant to ITB Clause 35, Purchaser will promptly notify each unsuccessful Bidder and will discharge its Bid Security, pursuant to ITB Clause 15.
34. Signing of Contract

34.1 At the same time as Purchaser notifies the successful Bidder that its bid has been accepted, Purchaser and the Purchaser will sign and send to the Bidder the Contract Agreement provided in Section 8, Sample Form No. 5 incorporating all agreements between the parties. The Contract Agreement shall include a suspension clause which ties its entering into force to the “no-objection” by DGCS and Jordanian Authorities.

34.2 Within 30 (thirty) calendar days of receipt of the Contract Agreement, the successful Bidder shall sign the Contract and return it to Purchaser.

35. Performance Security

35.1 Upon DGCS “no-objection”, Purchaser will send a written notification to the Supplier. Within 30 (thirty) calendar days from the receipt of such notification, the successful Bidder shall send a written confirmation, together with the Performance Security, to the Purchaser. The date of issuance of the written confirmation by the Supplier will be considered as the date of entering into force of the Contract.

35.2 The Performance Security shall be in accordance with the Conditions of Contract, in the form provided in Section 8, Sample Form No. 6, or in another form acceptable to Purchaser.

35.3 Failure of the successful Bidder to comply with the requirement of ITB Clause 34 or ITB Sub-Clause 35.1 shall constitute sufficient grounds for the annulment of the award and forfeiture of the Bid Security, in which event Purchaser may make the award to the next lowest evaluated Bidder or call for new bids.

36. Ethics Clauses

36.1 (a) Any attempt by a Bidder to obtain confidential information, enter into unlawful agreements with competitors or influence Purchaser during the process of examining, clarifying, evaluating and comparing bids will lead to the rejection of its bid.

(b) Without Purchaser prior written authorisation, a Supplier and its staff or any other company with which the Supplier is associated or linked may not, even on an ancillary or subcontracting basis, supply other services, carry out works or supply equipment for the project. This prohibition also applies to any other programmes or projects that could, owing to the nature of the Contract, give rise to a conflict of interest on the part of the Supplier.

(c) When putting forward a bid, the Bidder shall declare that it is affected by no potential conflict of interest, and that it has no particular link with other bidders or parties involved in the project. Should such a situation arise during performance of the Contract, the Supplier must immediately inform Purchaser.

(d) The Supplier must, at all times, act impartially and as a faithful adviser in accordance with the code of conduct of
its profession. It shall refrain from making public statements about the project or services without Purchaser’s prior approval. It may not commit Purchaser in any way without its prior written consent.

(e) For the duration of the Contract, the Supplier and its staff must respect human rights and undertake not to offend the political, cultural and religious mores of the beneficiary state.

(f) The Supplier may accept no payment connected with the Contract other than that provided for therein. The Supplier and its staff must not exercise any activity or receive any advantage inconsistent with their obligations to Purchaser.

(g) The Supplier and its staff are bound to maintain professional secrecy for the entire duration of the Contract and after its completion. All reports and documents drawn up or received by the Supplier during the performance of the Contract are confidential.

(h) The Contract shall govern the contracting parties' use of all reports and documents drawn up, received or presented by them during the performance of the Contract.

(i) The Supplier must refrain from any relationship likely to compromise its independence or that of its staff. If the Supplier ceases to be independent, Purchaser may, regardless of injury, terminate the Contract without further notice and without the Supplier having any claim to compensation.

(j) The DGCS reserves the right to reject a proposal for award and/or suspend or cancel project financing if corrupt practices of any kind are discovered at any stage of the award process and if Purchaser fails to take all appropriate measures to remedy the situation. For the purposes of this provision, "corrupt practices" are the offer of a bribe, gift, gratuity or commission to any person as an inducement or reward for performing or refraining from any act relating to the award of a contract or implementation of a contract already concluded with Purchaser.

(k) All bids will be rejected if it emerges that the award of a contract has given rise to unusual commercial expenses.

(l) Such unusual commercial expenses are commissions not mentioned in the main Contract or not stemming from a properly concluded Contract referring to the main Contract, commissions not paid in return for any actual and legitimate service, commissions remitted to a tax haven, commissions paid to a recipient who is not clearly identified or commissions paid to a company which has every appearance of being a front company.
(m) The Supplier undertakes to supply the DGCS on request with all supporting documents relating to the conditions of the Contract's execution. The DGCS may carry out whatever documentary or on-the-spot checks it deems necessary to find evidence in cases of suspected unusual commercial expenses.

36.2 Furthermore, bidders shall be aware of the provision stated in Sub-Clause 5.4 and Sub-Clause 25.1 of the General Conditions of Contract.

37. Applicable Law 37.1 This Bidding shall be interpreted in accordance with, the Practical Guide to Contract procedures for European Commission external actions and the Agreement concerning the Project indicated in ITB Sub-Clause 1.2 and signed between the Government of the Italian Republic and the Government of the Hashemite Kingdom of Jordan. In case any discrepancy arises between the regulations of the Government of the Hashemite Kingdom of Jordan and those of the agreement, agreement shall prevail.
