Introduction

The Innovative Medicines Initiative 2 Joint Undertaking (IMI2 JU) is working to improve health by speeding up the development of, and patient access to, innovative medicines, particularly in areas where there is an unmet medical or social need. It does this by facilitating collaboration between the key players involved in healthcare research, including universities, the pharmaceutical and other industries, small and medium-sized enterprises (SMEs), patient organisations, and medicines regulators. IMI2 JU is a partnership between the European Union and the European pharmaceutical industry, represented by the European Federation of Pharmaceutical Industries and Associations (EFPIA).

With a €3.3 billion budget for the period 2014-2024, IMI2 JU is the world's biggest public-private partnership (PPP) in the life sciences. Half of IMI2 JU budget (€1.638 billion) comes from Horizon 2020, the EU's framework programme for research and innovation. This will match €1.425 billion committed to the programme by EFPIA companies, plus up to €213 million that could be committed by other life science industries or organisations that decide to contribute to IMI2 JU as members or associated partners in individual projects.

The specific goal of IMI2 JU is to develop next generation vaccines, medicines and treatments, such as new antibiotics. It will build on the successes and lessons learnt under IMI's first phase. It brings together companies, universities, public laboratories, innovative small and medium-sized enterprises (SMEs), patient groups and regulators in collaborative projects to pave the way for breakthrough vaccines, medicines and treatments to tackle Europe's growing health challenges, and secure the future international competitiveness of Europe's pharmaceutical industry.

Job description

The Scientific Project Officer will be assigned duties and responsibilities within the scientific operations team related to the planning, management and implementation of research and development activities and the follow-up of the entire cycle of projects.

The Scientific Project Officer will be in particular responsible for:

- Contributing to the planning, management and monitoring of calls for proposals/tenders, the evaluation processes, the grant preparation stage and the monitoring of launched projects;
- Ensuring adequate follow-up of issues related to project implementation, contractual obligations and the management of external expertise;
- The management of the technical aspects of contracts linked to the preparation and implementation of the projects, or to collaborate during the preparation of such contracts;
- The co-ordination and networking aspects of IMI2 JU projects;
- Providing statistical input for IMI2 JU papers, communications or other documents concerning the IMI2 JU objectives and performance measurement;
- Promoting awareness of evaluation needs and benefits within IMI2 JU;
- Participating in the implementation of IMI2 JU scientific priorities;
- Reporting on evaluation activities of IMI2 JU;
- Collaborating in the activities of the scientific team.

The successful candidate might undertake other tasks and activities as necessary under the responsibility of the Head of Scientific Operations as tasks may evolve according to the development of IMI2 JU structure or activities.

Selection criteria

Essential

- Demonstrated experience and skills in project management;
- High level of organisational and planning skills;
- Good collaboration skills;
- Ability to work well in a multicultural team but also independently;
- Ability to work effectively under tight deadlines;
- Good analytical capabilities and problem-solving skills;
- Strong customer service-oriented approach;
- Good interpersonal skills;
- Excellent communication skills plus ability to communicate effectively in English, both orally and in writing, especially when giving support or training, with good presentation and reporting skills;
- Proficiency of MS Office, in particular Outlook, Word, Excel, PowerPoint.

Advantageous

- A PhD in a field relevant to the position (such as medical biosciences, pharmacy, medicine, chemistry, etc.);
- Knowledge and skills in the use of statistics and the presentation of data;
- Sound knowledge of the biomedical or pharmaceutical sector.

Independence and Declaration of Interest

The successful candidate will be required to make a declaration of commitment to act independently in the public interest and to make a declaration in relation to interests which might be considered prejudicial to his/her independence. Candidates must confirm their willingness to do so in their application.

Selection and Appointment Procedure

For each selection process a Selection Committee is nominated by the Appointing Authority. After applications are screened the Selection Committee, basing itself on elements of the application, will draw up a shortlist of candidates to be invited for an interview. After the interviews, the Selection Committee will establish a reserve list of the most suitable candidates to occupy the position advertised. From this list, suitable candidate(s) may be recruited upon decision of the Appointing Authority. The IMI2 JU may decide at any time of the procedure not to pursue with the recruitment.

A binding commitment can only be made after the verification of all conditions² and will take the form of a contract signed by the Appointing Authority of the Joint Undertaking.

Candidates should note that inclusion on the reserve list does not guarantee recruitment.

The reserve list established by the Selection Committee will be valid until 31 December 2017. The validity period may be extended.

The interview will consist of the following components:

A set of questions aiming at assessing:

- The candidate's competencies with reference to the job profile;
- The candidate's general aptitudes and language abilities to the extent necessary for the performance of their duties;
- The candidate's knowledge on the field in which the Joint Undertaking operates;
- The candidate's motivation and understanding of the position.

Equal opportunities

The IMI2 JU, as a European Union body, applies a policy of equal opportunities and no discrimination in accordance with article 1d of the Staff Regulations³.

Conditions of Employment

The successful candidate will be appointed as a Temporary Agent AD 5, pursuant to Article 2(f) of the Conditions of Employment of Other Servants of the European Communities, for a period of three years. After an evaluation of the performance of the post holder's performance and, subject to budget availability, the term of office may be extended. The period of engagement will not in any case exceed the lifetime of the IMI2 JU.

The place of employment will be Brussels, where the Joint Undertaking premises are located.

Remuneration

The successful candidate who is offered a contract of employment will be graded on entry into service in the relevant step (1 or 2), according to the length of his/her professional experience.

The basic monthly salary for AD 5, step 1 is €4.489,61. In addition to the basic salary, staff members may be entitled to various allowances, in particular expatriation allowance, household allowance, dependent child allowance and education allowance.

The salary is subject to a Community tax deducted at source and staff members are exempt of national taxation.

² Before the appointment, a successful candidate shall undergo a medical examination by the medical services of the Commission in order that the IMI2 JU may be satisfied that she/he fulfils the requirement of article 28(e) of the Staff Regulation of the Officials of the European Communities.
