Therefore, a keyword search in the project descriptions does not reflect the amount of our disbursements for food and nutrition security (result was only 66.25 Mio. USD). We will solve this problem for the next reporting period by including more project descriptions. For reporting on 2015 we used an internal marker which indicates for each programme if FNS is a main or secondary objective (for programmes where FNS is only a secondary objective only half of the amount is counted). Commitments accordingly: 801.318.500 USD. Amounts cover only BMZ disbursements and commitments.</p>

\* As explained in the G7 FSWG Chair's Report: Financial Report on Food Security and Nutrition, the G7 will report on Earmarked Voluntary Contributions for the year 2015 as soon as possible, after internal clarifications on an agreed common methodology. Therefore, this report does not portray G7 Partners' financial contributions to multilateral organizations in full.
