WORKING EXPERIENCE

Current position

From April 2015
Head of Sustainability **Rest of Europe, North Africa and Middle East**
ENEL GREEN POWER

- I have designed and managed sustainability plans for the Countries in the Area with the aim of integrating in the Enel Green Power Business the Creating Shared Value (CSV) model, tools and criteria in all the value chain from BD to O&M phase
- In this perimeter I had the opportunity to work in markets with a “mature” Context: in Countries with a strong and historical Enel presence, such as Italy, Spain, Greece and Romania and, in the same time, to develop Sustainability strategies, community relations and Creating Shared Value plans in developing Countries.

My responsibilities:

- to define the Sustainability Plans and related budget for the EMEA Region
- to manage Sustainability teams working in the area
- Management, implementation and evaluation of EGP sustainability projects promoting their integration into the Company value chain
- to sustain and integrate the long term business development based on Creating Shared Value (CSV) model and shared culture at global level, monitoring stakeholders acceptance, local involvement, deployment and development.
