The Agency also assists the Commission and Member States by providing training to national inspectors and trainers. The EFCA promotes compliance and an European-wide level playing field so that the Common Fisheries Policy rules are applied and equally observed by everyone in the fishing industry. This contributes towards sustainable fisheries to the benefit of present and future generations. The EFCA, in cooperation with the European Border and Coast Guard Agency (FRONTEX) and the European Maritime Safety Agency (EMSA), each within their mandate, also supports national authorities carrying out coast guard functions.

EFCA is launching a call for expression of interest for **secondment of national experts** to the Agency to set up a pool of candidates for future needs.

Seconded National Experts (SNE) carry out tasks for the development of activities in the context of the predetermined work programme and supporting EFCA's general objectives.

Their tasks may include:

- Provision of expertise in impact analysis and cost-effectiveness;
- Provision of expertise in data management, data analysis;
- Provision of expertise regarding the operation of a Fisheries Monitoring Centre or similar;
- Provision of expertise for ICT.

Accordingly, EFCA is considering engaging Seconded National Experts with the appropriate technical expertise for an initial period of twelve months as from the next possible starting date.

The selected candidate will benefit of the regime applicable to SNE as established by AB Decision No 09-I-07 of 19.03.2009 of the Administrative Board of the EFCA (in annex).
