**Tenth Call for Proposals on Scientific and Technological Cooperation  
(Scientific Track 2021)**

**Submission by Wednesday, February 10, 2021**

**A. AREAS OF COOPERATION**

Within the framework of the Agreement on Industrial, Scientific and Technological Research and Development Cooperation between Italy and Israel (hereinafter called the “Agreement”) and in particular under the Subcommittee for Scientific Cooperation, the Ministry of Foreign Affairs and International Cooperation (referred to hereafter as “MAECI”), the Directorate General for Cultural and Economic Promotion and Innovation for the Italian side and the Israeli Ministry of Science and Technology (referred to hereafter as “MOST”) – referred to hereafter as “the Parties” – are providing financial support for joint Italian-Israeli research projects carried out by scientists from the two countries. Italian-Israeli research teams are hereby invited to submit joint research proposals in the following areas:

- 1. Health Applications of Artificial Intelligence;**
- 2. Development of climate resilient crops under the global change scenario of the Mediterranean Basin;**

## **B. MODE OF COOPERATION**

Cooperation may take the form of:

- Joint research activities in which a project is conducted in the Italian and Israeli laboratories;
- Complementary methodological approaches to a common problem;
- Joint use of research facilities, materials, equipment and/or services by cooperating scientists.

Submission of joint research projects by researchers of both countries is requested with the aim of encouraging scientific and technological co-operation between Italy and Israel.

## **C. LEVEL OF FUNDING AND PROJECT DURATION**

Research projects can span a maximum period of two years (24 months).

The total maximum funding for each individual project is **€ 100.000 for the Italian side and € 100.000 (400,000 NIS) for the Israeli side for the entire two-year project period.**

For the present call, each Party is willing to contribute a total amount of **€ 800.000 for the Italian side and € 800.000 (3.200,000 NIS) for the Israeli side and to support a maximum of 8 joint projects.** However, the final number of projects to be funded, as well as the final budget approved for each project, will be determined on the basis of budgetary and scientific considerations.

Contracts between the institutions issuing the contribution and the beneficiaries will be signed as follows:

**In Italy:** MAECI will cover up to 50% of the documented and eligible research costs incurred by the applying Italian institution. Funding will be granted on the

basis of the final financial report and following positive evaluation of the final scientific report by the MAECI scientific evaluation committee.

**In Israel:** MOST will cover 100% of the documented and eligible costs of the research up to the amount of the approved budget, in accordance with the project proposal, subject to the terms and conditions as specified below.

Funding of approved projects is subject to the approval of the State Budget for 2021 for both participating Ministries and to the availability of funds in the relevant line of the State Budget for both countries.

Furthermore, MAECI and/or MOST reserve the right to cancel this Call or not to fund a second year of research for scientific-professional, administrative, budgetary or policy reasons.

#### **D. ELIGIBILITY**

1. Project activities must be jointly conducted by collaborating Israeli and Italian research teams;
2. Research teams must be led by a Principal Investigator from the applying institutions in each country;
3. In both countries, the PI must be member of an Academic or Research Institution. In particular:

In Italy, a research institution must be a public or private University, a public or private Research Institute/Centre, acting under the Italian law. For the purpose of this Call, a "Research Institute" is an institution whose main activity aims at the advancement of cutting-edge scientific knowledge, provided with appropriate infrastructure and equipment, and employing scientists who publish their research results in leading, peer reviewed, international scientific journals and present them at international symposia.

In Israel, a "Research Institution" must be an accredited institution of Higher Learning in Israel, according to the Council for Higher Education Law, 1958; or, a public Research Institute with experience in the relevant field of research which is a nonprofit organization; or, a Research Institute which is a government company or a governmental unit.

4. In Italy the Principal Investigator (PI) must hold Italian or any other EU nationality and must be legally resident in Italy.
5. Principal Investigators from both countries cannot submit more than one project proposal under the present Call
6. Both Principal Investigators and their corresponding Research Institutions are accountable to MAECI and to MOST, respectively, for the execution of the project and for the correct final financial report.
7. Experiments Approval
  - In Italy, for projects involving experiments with animals, ethics approval by the competent Ethics Committee must be provided when submitting the proposal. This approval is mandatory to obtain the formal authorization from the competent Ministry of Health to start the activities (D.Lgs 26\_04/03/2014 and Directive 2010/63 EU). Projects involving experiments with human beings must be performed in accordance with the Directive 536/2014/EC. The Italian coordinator should provide a self-declaration of adherence to above cited rules.
  - In Israel, for projects involving experiments that require ethics approval by the relevant Ethics Committee, the approval must be provided before the commencement of the experiment itself.
8. The project may include the use of sub-contractors from the private sector, if necessary.
9. In relation to the additional requirements which Italian partners must fulfill, and to the rules applicable to their dealings with the MAECI, Italian

researchers are asked to refer to the “Norme integrative per la partecipazione italiana ai Bandi per la raccolta di progetti congiunti di ricerca e per la rendicontazione” which are to be taken as part and parcel of the present Call.

## **E. ADDITIONAL PROVISIONS**

The approved Israeli and Italian research teams and their respective Research Institutions shall enter into a “Cooperation Agreement” regarding Intellectual Property rights from the output of the financed project (template attached as Annex B).

In Italy the project will not be eligible for funding if the signed “Cooperation Agreement” has not been received within the requested term

## **F. SUBMISSION OF RESEARCH PROPOSALS**

### **- The submitted proposals, in Italy and in Israel, must be identical.**

Each of the two PIs shall fill out all Forms required by the respective procedures of the two Parties, as detailed below. Both forms shall be signed by both Principal Investigators as well as by the legal representatives of both applying Research Institutions. Project proposals submitted to only one of the two Parties will not be accepted.

Joint deadline for applications: **Wednesday, February 10, 2021**

### **For Italian research teams:**

Italian Principal Investigators must submit their completed applications to MAECI by certified electronic mail to the following address: **[dgsp09.accordoisraele@cert.esteri.it](mailto:dgsp09.accordoisraele@cert.esteri.it)**. The PEC object must be: "Italy-Israel joint proposal – 2021 scientific track” followed by the Acronym of the project and by the last name of the Italian PI. The application must be sent by

**Wednesday, February 10, 2021 at 17:00 (Italian time)** exclusively and mandatorily, on penalty of exclusion from the evaluation process. Italian applicants must send exclusively the documents as laid down in the *Norme integrative per la partecipazione italiana ai Bandi per la raccolta di progetti congiunti di ricerca e per la rendicontazione*, according to the "Check List" provided as Annex A.

In addition to the duly signed application in "pdf" format, PIs are requested to submit a working copy in "doc" format without signatures.

**For Israeli research teams:**

- i. The Principal Investigator must submit the proposals in **English** via the online submission system (as detailed below) a week before the final **Joint Deadline**, by **Wednesday, February 3, 2021 at 15:00**.
- ii. A proposal submitted by February 3 can be edited by the researcher, in coordination with the institute, until the final submission date.
- iii. The **institute** must submit the final proposal by **Wednesday, February 10 2021 at 15:00 (local Israel time)**. This is the final formal submission date. Proposals not submitted by the institute by this time, will be disqualified.

**The application must be submitted through the "Science Forefront" site at: <https://kf.most.gov.il>** . Please be noted: as technical problems are common, it is strongly recommended to submit the application well in advance of the deadline.

(In order to apply for the first time, the applicant needs to fill an "account request" in the Science Forefront site. The request will be approved by the research authority of the Institute. Once approved, the applicant will be notified by email that the account is active.

## **G. ELIGIBLE COSTS**

All budget items and expenditures must conform to the national rules relevant for each applicant. Funding will therefore be provided mainly in support of the collaboration between the two partners and of the local research that is necessary for the collaboration.

### **For Italian research Teams:**

- The financial contribution for successful Italian applicants will be paid at the end of the project, upon presentation of a financial report of eligible expenses.
- After completion of the administrative procedure, the Italian beneficiary can file a motivated request for advance payment of up to 30% of the contribution awarded. Requests aimed at covering personnel costs for recruitment of research fellows with temporary contracts will be given special consideration.
- Funding provided within this Call is intended to enhance the capacity of the applicants to collaborate. For Italian research teams please refer to *“Norme integrative per la partecipazione italiana ai Bandi per la raccolta di progetti congiunti di ricerca e per la rendicontazione”* which are to be taken as part and parcel of the present Call.
- The Italian Principal Investigator will provide budget details as outlined in Annex 1.

### For Israeli research teams,

Funding provided by MOST can be used for the following types of expenses:

1. Stipend or salary for PhD students, post-doctoral fellows, technicians and/or laboratory workers (i.e. a temporary position up to 2 years) retained specifically for the purpose of the project;
  2. Consumables;
  3. Small Scale Equipment;
  4. Travel and visiting costs;
  5. Joint seminars and workshops;
  6. Overhead expenses up to 15% of the total amount of the research project.
- The Proposal will include a fully detailed budget plan.

## **H. MUTUAL VISITS FOR STUDY PURPOSES**

Participating scientists are encouraged to spend an extended period of time visiting their counterparts' institutions. As long as the visits are an integral part of the research collaboration, international travel and in-country living expenses of visiting scientists should be included in the project's budget. The visits must take place only in Italy or in Israel or in third countries that participate in the project.

## **I. PROPOSAL REVIEW AND SELECTION PROCESS**

Project proposals will undergo a 2-step selection process: in the first step, the proposals will be separately evaluated by each Party. In step 2, the assessment will be carried out by the Sub Joint Committee including representatives of the two national Ministries, in order to select the projects admitted for funding.

The projects will be assessed according to the following evaluation criteria:

1. Competence and expertise of the research teams;
2. The level of involvement of young researchers;

3. Significance of the problem being addressed, and the potential impact of the proposed approach on solving it. (Proposals should address these issues explicitly and provide as much evidence as possible.);
4. Originality and novelty of the proposed research;
5. Clarity and quality of the research proposal itself – presentation of the topic, definition of research objectives, presentation of research methodology and detailed program of work;
6. Feasibility of the proposed research and access to relevant resources;
7. Added value of the bilateral scientific cooperation; extent of genuine collaboration between the Italian and Israeli research teams;
8. Justification of the requested project budget.

## **J. NOTIFICATION OF THE RESULTS**

Principal Investigators whose projects have been selected by the Sub Joint Committee will be informed of the results in Italy and in Israel by means of official letters.

In Italy, the list of selected projects will also be published in the Website of the MAECI at the following address:

[http://www.esteri.it/mae/it/ministero/servizi/italiani/opportunita/accordi\\_coop\\_indscietec.html](http://www.esteri.it/mae/it/ministero/servizi/italiani/opportunita/accordi_coop_indscietec.html)

## **K. AWARDING PROCEDURES AND PAYMENTS**

In Italy, once the selection process has been completed, the MAECI will inform the Institution of the PI on the amount and conditions of the grant awarded. The Ministry will finalize the administrative procedures for the allocation of the grant upon receipt of formal acceptance by the beneficiary.

In Israel, an application for the continuation of research funding for the second year must be submitted to MOST by the Research Institution of Israeli Principal Investigator on the appropriate forms, at least two months prior to the end of the first year of the project together with the annual scientific report.

### **Interim and final report**

Reporting requirements for each national research team are set out in the research agreements between each team's Research Institution and the relevant Party to this Call.

**For the Italian Party**, the Italian Principal Investigator has to submit the following documents to MAECI:

1. An interim scientific and financial report, according to the above described correspondence with the Ministry.
2. A final scientific and financial report, covering the work carried out during the two-year project, within 30 days after conclusion of project activities

### **Payments**

Payments will be made by MAECI and MOST, respectively, to the Research Institution of each Principal Investigator, in keeping with the provisions of the agreements referred to above, according to the regulations and practices in force in each country.

## **L. CONSOLIDATOR GRANT**

It is the intention of the MAECI and MOST to issue **a special Call for Proposals during the second year of project activities, directed exclusively to the running projects** under the present call **and proposing a one-year extension with additional budget**. – The PIs will be requested to

submit a proposal for "**consolidation**" of their results only in case there is a concrete perspective of further development of the bilateral cooperation.

The consolidation proposals will be examined by both MAECI and MOST, and the Parties will decide at the Sub-Joint Committee meeting whether to grant supplementary funding ("**Consolidator grant**") to a maximum of two projects. This supplementary funding, amounting to a maximum of 50,000 euro per project, will also entail an extension of the term of the project for one additional year, not cumulative with respect to the provisions of point (C) of this notice.

#### **M. SPECIAL PROVISIONS REGARDING THE ISRAELI APPLICANT**

All procedures and activities under this Call or the projects approved hereunder, including the eligibility of Institutions via which applications must be filed, are subject to the "standard MOST Procedures Regarding Scientific Projects Funded by MOST" and to "MOST Standard Contract for Scientific Projects" (both documents referred to hereinafter as "the standard terms").

Israeli applicants are required to familiarize themselves with the standard terms before filing an application under this Call; filing an application constitutes a declaration that the applicant has done so and agrees to be bound by the provisions thereof.

**Sabbatical Leave:** Israeli researchers who intend a sabbatical leave in the first year of the project cannot be approved as a PI of the research proposal.
